LEVATOR MIPS

Merging POC's trusted Whole Helmet Concept™ and Seamless Fit concepts, the new Levator MIPS integrates a raft of technology for absolute safety and vision anywhere on the mountain.

HIGHLIGHTS

- Integrated visor
- Easily interchangeable visor.
- Multi-impact protection zones.
- Mips® rotational impact protection.
- RECCO® Avalanche Rescue Reflector.
- Fidlock® buckle

ARTICLE NO. 10486

CERT. CE EN 1077-B, ASTM F2040

DETAILS

MIPS Evolve

Mips enhances rotational impact protection.

RECCO® Reflector

A RECCO® Avalanche Rescue Reflector helps rescue services easily and quickly locate you if something goes wrong.

Dual-material liner

EPP gives multi-impact protection in the places most impacts occur, while EPS gives trusted protection and keeps weight low.

ABS Shell

The ABS shell has exceptional strength, durability and impact resistance.

360° Fit System

A 360° adjustment system makes it easy to find a comfortable, secure fit without changing padding.

Adjustable Ventilation

For increased comfort across a broader range of conditions.

Fidlock® Buckle

A Fidlock® buckle makes it

easy to fasten the helmet while wearing gloves.

Two-step detachable ear pads

It's easy to adjust coverage or remove pads completely for a more open feel.

Integrated Visor

The integrated visor gives an exceptional field of view in all directions.

Easily interchangeable visor

The visor lens can easily and quickly be changed to ensure the best visual experience in all conditions.

MENINX RS MIPS

Inspired by the legends of racing, the new Meninx offers the ultimate balance between protection and performance.

HIGHLIGHTS

- Dual material liner
- Two-step adjustable and removable ear pads.
- RECCO® Reflector
- TwICEme® NFC Medical ID
- MIPS

DETAILS

ABS Shell

The ABS shell has exceptional strength, durability and impact resistance.

Dual-material liner

Multi-impact EPP gives extra protection in the places most impacts occur, while an EPS section at the top of the head gives secure protection at a low weight.

Two-step detachable ear pads

It's easy to adjust the amount of ear coverage or remove the pads completely for a more open feel.

Adjustable ventilation

An easy-to-use slide adjuster at the front of the helmet gives complete control over ventilation.

Fidlock® buckle

The Fidlock® Buckle is easy to operate with gloves on.

Goggle chimneys

Vents in the helmet align with goggles to allow steam to escape.

Goggle clip

A goggle clip keeps goggles secure.

OBEX BC MIPS

With enhanced functionality specifically for the backcountry, the Obex BC Mips gives durability and security on your adventures.

HIGHLIGHTS

- TwiCEme® NFC Medical ID
- RECCO® Avalanche rescue reflector.
- MIPS rotational impact protection.

ARTICLE NO. 10114

CERT. CE EN 1077-B, ASTM F2040

DETAILS

MIPS Evolve

Mips Evolve enhances rotational impact protection.

TwiCEme® NFC Medical ID

The twiCEme® NFC Medical ID gives instant access to vital medical info and emergency contact details.

RECCO® Reflector

A RECCO® Avalanche Rescue Reflector helps rescue services easily and quickly locate you.

EPS Liner

The EPS liner gives optimized, lightweight protection.

Aramid Panels

Aramid panels improve structural strength and enhance penetration protection.

Dual material shell

An outer PC shell featuring a top section of ABS gives the ultimate balance of strength and durability at a low weight.

360° Fit System

The 360° adjustment system makes it easy to find a comfortable, secure fit without changing padding.

Adjustable ventilation

The ventilation is fully adjustable for increased comfort.

Goggle Chimneys

Goggle chimneys allow heat from goggles to escape through the helmet, minimizing goggle steaming.

Goggle Clip

A flexible clip at the rear of the helmet keeps goggles secure.

Detachable ear pads

Ear pads are easy to remove, ideal for warmer weather conditions.

Communication headset compatible

The helmet is compatible with the POC Aid Communication Headset.

SKULL DURA COMP MIPS

Featuring Race Lock for a secure fit and updated to include Mips rotational impact protection, the Skull Dura Comp gives trusted race protection for the very highest speeds.

HIGHLIGHTS

- Mips rotational impact protection.
- VPD Deflector panels
- Multi-impact protection
- Maxilla Breakaway Chin Bar compatible.
- Race Lock turnwheel adjuster.

ARTICLE NO. 10181

CERT. CE EN 1077-A, ASTM F2040

DETAILS

MIPS Integra

The latest technology from brain protection specialists Mips enhances rotational impact protection.

Race Lock

Race Lock uses a turnwheel adjuster in line with the edge of the helmet to ensure the tightest, most secure fit without affecting the race tuck.

Multi-impact liner

An EPP helmet liner gives multi-impact protection.

Dual-Material Shell

A shell of injected PC/ABS balances strength and durability.

VPD inserts

A layer of VPD between the helmet shell and liner absorbs impact forces from hitting the gates, keeping the liner in optimum condition for protecting your head in a fall.

Pull-Release Ear Pads

Pull-Release ear pads can be easily and safely removed after an accident.

Ear chambers

Open spaces around the ears

minimize the helmet's impact on balance and hearing.

Maxilla Chin Guard Compatible

The helmet is compatible with the POC Maxilla Breakaway Chin Guard.

Goggle Clip

A flexible clip at the rear of the helmet keeps goggles securely attached.

Fidlock® Buckle

A Fidlock® buckle makes it easy to fasten the helmet while wearing gloves.

SKULL DURA JR

Giving junior racers access to the safety technologies found on adult racing helmets, the Skull Dura JR ensures younger skiers can benefit from protection tailored for racing.

HIGHLIGHTS

- Certified for racing
- Multi-impact protection
- Race Lock integrated adjuster.

ARTICLE NO. 10180

CERT. CE EN 1077-A, ASTM F2040

DETAILS

Race Lock

The Race Lock integrated adjustment system makes it easy to find a comfortable and secure fit, and does not interfere with the race tuck.

Multi-impact protection

A multi-impact EPP liner ensures the helmet keeps you protected.

ABS/PC shell

An outer shell of both ABS and PC gives durability and dent resistance at a low weight.

Ear Chambers

Special chambers around the ears ensure balance is unaffected by the helmet and limit hearing interference.

Race certified

The helmet is certified to FIS RH2013 standards, meaning it can be used in FIS-sanctioned race events.

POCITO SKULL

Optimized for the specific needs of junior ski racers, the POCito skull gives multi-impact absorption and penetration protection.

DETAILS_

RECCO® Reflector
A RECCO® Reflector helps rescue services easily and quickly locate you if something goes wrong.

Multi-impact liner
An EPP helmet liner gives multi-impact protection.

Dual-Material Shell
A shell of injected PC/ABS balances strength and durability.

Aramid Penetration Barrier
A layer of aramid molded to the

helmet liner enhances penetration protection.

Turnwheel size adjuster
The easy-to-use turnwheel adjuster makes it easy to find a secure fit.

Removable Foam Liner
The foam lining gives a close and comfortable fit, and is removable for easy cleaning.

Goggle Clip

My Info Panel
Gives space to store emergency contact information.

ADJUSTABLE **500g**

HELMET SIZE GUIDE

GREAT ALONE, BETTER TOGETHER

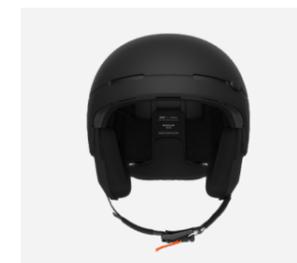

To enhance performance and protection, we always design our helmets and sunglasses so they have a seamless fit. The way in which sunglasses and helmets will be used together affects their design so that the specific needs of different kinds of rider can be met.

DISCOVER A SEAMLESS FIT

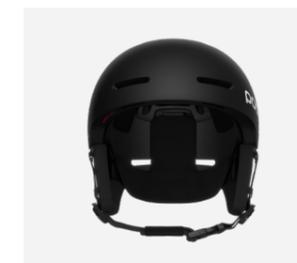

OBEX MIPS AND NEXAL

A natural choice both on- and off-piste, the Nexal's frame outriggers ensure the goggle sits even closer to a helmet for a feeling of complete unity.

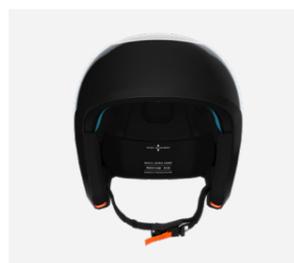

MENINX AND ZONULA

Optimized to keep focus on what is necessary, the Meninx and the Zonula Clarity together reach the epitome of what it means to be simply complicated.

FORNIX AND FOVEA

Created to work together everywhere on the mountain, the Fovea's exceptional field of view pairs perfectly with the lightweight Fornix for all-day, all-mountain use.

SKULL DURA COMP AND FOVEA COMP

Find ultimate focus and protect all the senses with this combination tailored for the specific needs of racers.

OBEX PURE AND OPSIN

Pare back all that is unnecessary and find a new purity. The Obex Pure and Opsin are the ideal combination for an uncomplicated experience.

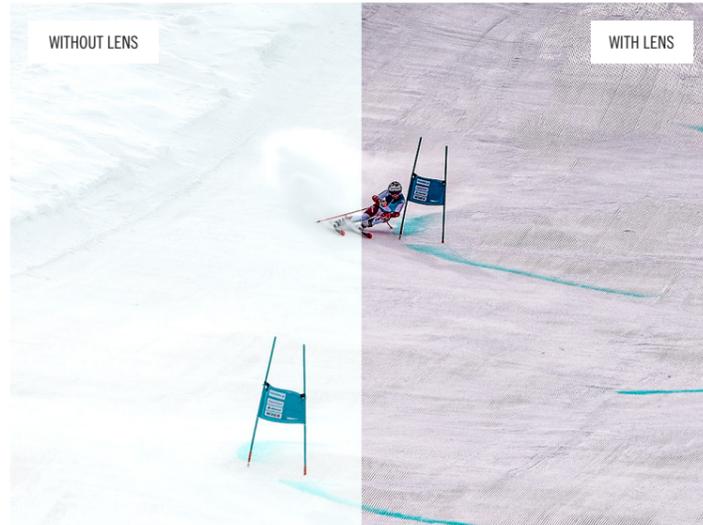

OBEX MIPS AND ORB

Choose this combination for exceptional coverage and peripheral vision on backcountry adventures.

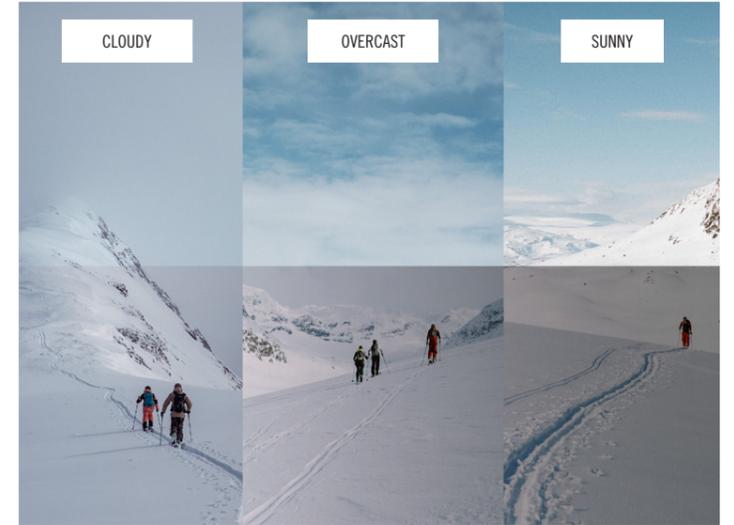

CLARITY COMP

Absolute precision for performance vision in the intensity of competition.

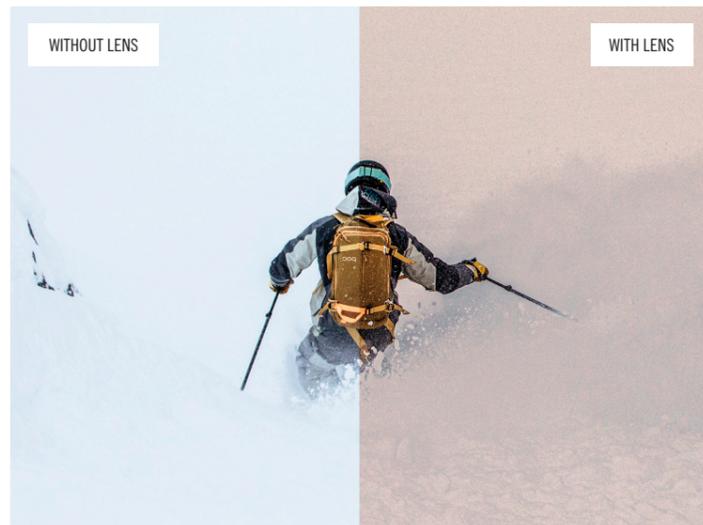

CLARITY PHOTOCHROMIC

A Photochromic lens is clear indoors and darkens automatically when exposed to sunlight. The molecules coated on the lens surface are activated by the sun's ultraviolet radiation, causing the lens to darken to suit various riding conditions.

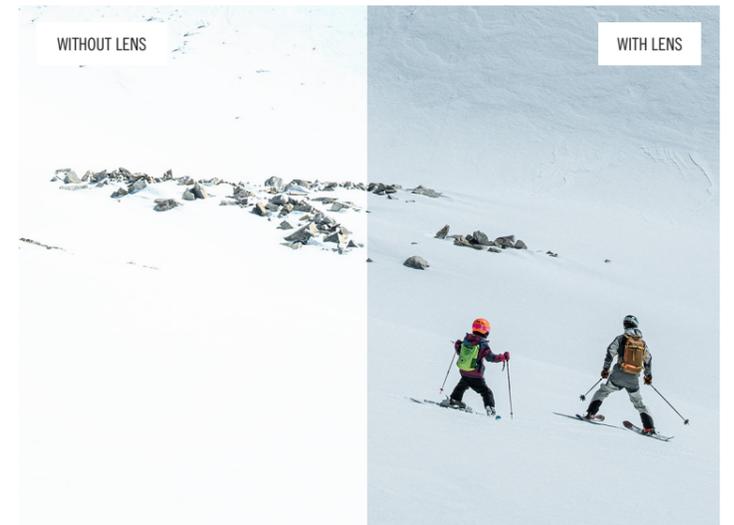

CLARITY

All-day precision and performance for every skier. Clarity lens technology adjusts the color spectrum for precision vision.

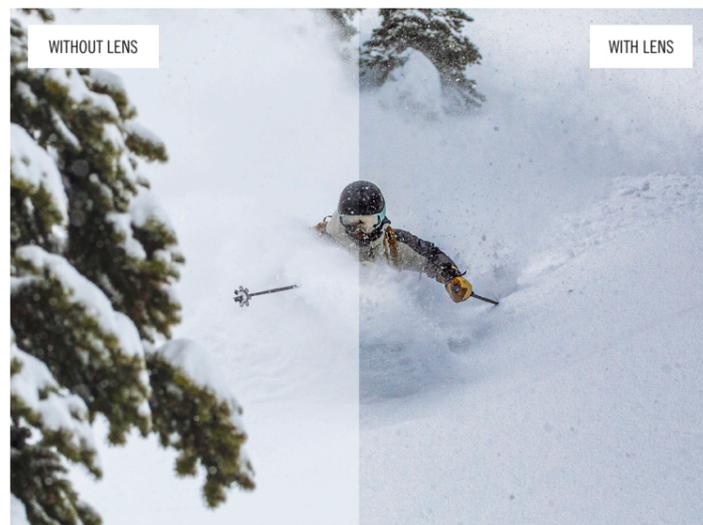

CLARITY POCITO

Adult lenses for snow environments usually offer a strong contrast in order to see the slopes better. For kids, such tints are very stressful for the eyes. The POCito tint offers a mix of comfort and visual acuity.

CLARITY DEFINE

Tuned to improve definition with a natural feel, making them ideal for all-day use.

NEW

NEXAL CLARITY

Inspired by racing, the new Nexal Clarity brings substance to a unique style. The addition of zygomatic bone covers builds on the idea that goggles do more than simply protect the eyes.

HIGHLIGHTS

- Frame outriggers give a closer fit with a helmet
- Zygomatic bone covers
- Clarity lenses
- Triple-layer face foam
- Adjustable Ventilation

LENS BY

CLARITY

DETAILS

Clarity

The supplied lens features Clarity technology.

Spektris mirror

The unique Spektris mirror coating is engineered for perfect harmony with the Clarity lens.

Cylindrical Lens

The cylindrical lens sits an even distance from the face for minimal optical distortion.

Zygomatic Bone Covers

Covers underneath the frame increase protection from wind chill.

Ri-Pel anti-dirt and -water treatment

Treatment protects from dirt, water, sweat, salt, oil and dust, and also makes the lenses easier to clean.

Anti-scratch treatment

An anti-scratch treatment on the outer lens reduces the risk of surface damage for clearer vision.

Anti-fog treatment

An anti-fog treatment on the inner lens helps reduce internal fogging for clear vision as the intensity rises.

Complete UV Protection (UV 400)

Triple-layer face foam

Multiple layers of foam ensure a soft and comfortable fit.

Silicone grippers

Silicone grippers on the inside of the strap help keep the goggles secure.

Frame outriggers

The soft frame outriggers make it possible for the goggle to sit as close as possible to a POC helmet.

Adjustable ventilation

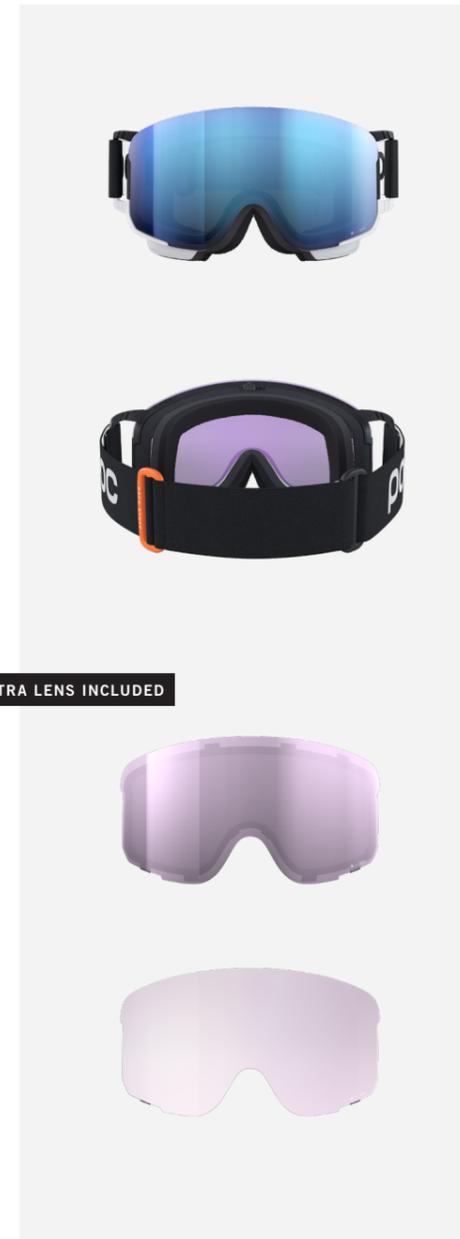

The goggle ventilation can be toggled on and off – ideal for reducing airflow when skiing at higher speeds.

INCLUDED

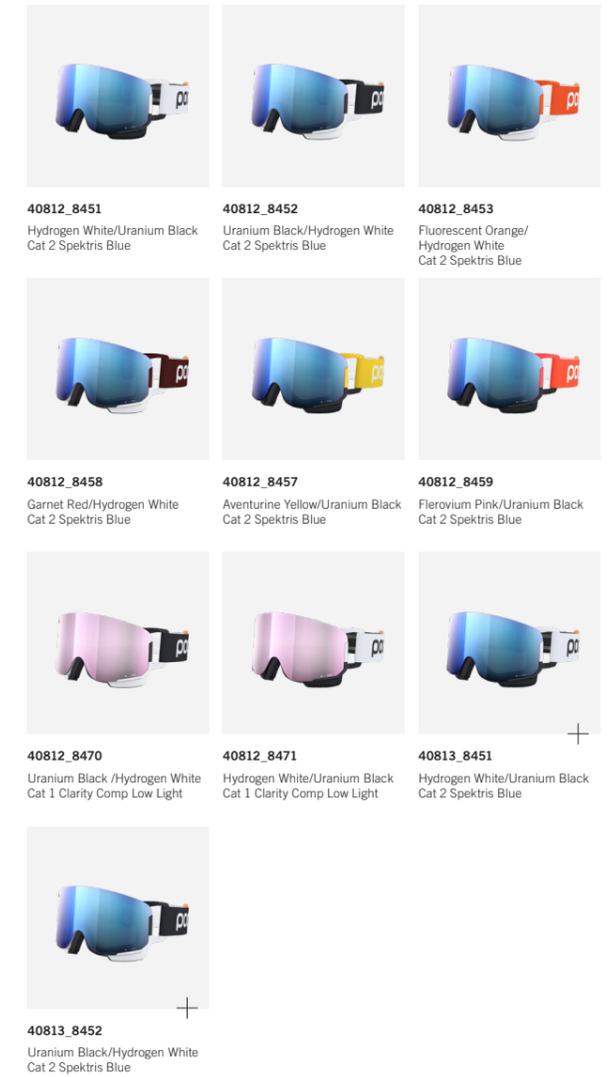

- + Soft carrying pouch/cleaning cloth.

A unique frame design supporting a large toric lens ensures the Orb Clarity goggles give optimum all-round vision anywhere on the mountain.

DETAILS_

Maximized field of view
An innovative frame construction ensures the field of view is maximized.

Spektris mirror
The unique Spektris mirror coating is engineered for perfect harmony with the Clarity lens.

Ri-Pel anti-dirt and -water treatment
The Ri-Pel hydrophobic and oleophobic treatment protects from dirt, water, sweat, salt, oil and dust.

Anti-scratch treatment

Anti-fog treatment

Complete UV Protection (UV 400)

Dual-Compound Frame
Durable grilamid and flexible TPU combine to give strength and flexibility.

Triple-layer face foam

Silicone grippers

Included
Soft goggle pouch/cleaning cloth.

ARTICLE NO. 40700

NEW

ORB CLARITY HEDVIG WESSEL ED.

The Hedvig editions honour Hedvig Wessel's homeland and her inspirations, including the commanding national mountain of Norway, Stetind.

COLORS

FOVEA CLARITY

With exceptional peripheral and vertical field of view, the Fovea feature a toric Clarity lens, and a soft frame for flexibility, comfort and a secure fit on a wide variety of face shapes.

HIGHLIGHTS

- Clarity lens technology
- Spektris mirror coatings
- Triple-layer face foam
- Malleable frame

LENS BY

CLARITY

DETAILS

Clarity

The supplied lens features Clarity technology for all-day, all-mountain performance.

Spektris mirror

The unique Spektris mirror coating is engineered for perfect harmony with the Clarity lens base tint for an enhanced visual experience in specific light conditions.

Toric Lens

The Toric lens shape minimizes distortion to give optimum vision.

Ri-Pel

The Ri-Pel hydrophobic and oleophobic treatment protects from dirt, water, sweat, salt, oil and dust, and also makes the lenses easier to clean so your vision is always clear.

Anti-scratch treatment

An anti-scratch treatment on the outer lens reduces the risk of surface damage for clearer vision.

Anti-fog treatment

An anti-fog treatment on the inner lens helps reduce internal fogging for clear vision as the intensity rises.

Complete UV Protection (UV 400)

The goggles give complete protection from harmful UVA and UVB rays.

Triple-layer face foam

Multiple layers of foam ensure a soft and comfortable fit, perfectly molding to the contours of your face.

Silicone grippers

Silicone grippers on the inside of the strap help keep the goggles secure against a helmet.

INCLUDED

- + Soft carrying pouch/cleaning cloth.

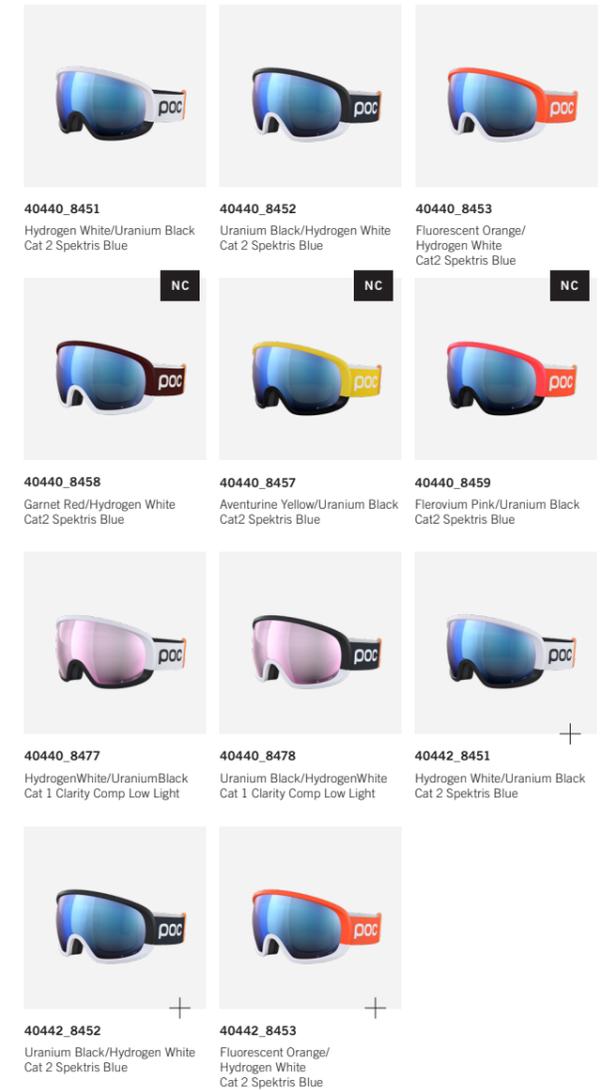

360°

+ EXTRA LENS INCLUDED

COLORS

FOVEA CLARITY COMP

Enhance your vision with Clarity – lenses developed in collaboration with industry leader Zeiss.

HIGHLIGHTS

- Clarity lens technology
- Spektris mirror coatings
- Comes with spare lens
- High-density goggle strap

VENTRAL FAMILY & AIM

An easy choice for the road cyclist.

OMNE FAMILY & ASPIRE

Complementary protection for gravel, adventure, the road or the trail.

CLARITY SUNGLASSES

Clarity™ is POC's innovative lens program. Designed to control the color spectrum for enhanced contrast and color definition. All combinations of tints, mirrors and technology have been carefully selected to minimize glare and to utilize the full effect of the base tint benefits. All to ensure vision can stay sharp when riding in extreme conditions, even the changing ones.

CLARITY ROAD

Clarity Road lenses have specific tints that are optimized for the road environment. The lenses increase contrast on the road surface for sharper definition and allow the rider to react earlier to surface irregularities.

CLARITY TRAIL

Clarity Trail lenses have tints which are specifically designed to enhance contrast and boost trail associated colors, such as green and brown. MTB riding is often subject to abrupt changes in light and shadow and as such the lenses are optimized for variable light conditions.

CLARITY DEFINE

Clarity Define lenses are optimized for all-round use, giving sharper contrast and definition across a broad range of colours and light conditions.

OSEUS VPD LAYER

The Oseus VPD Layer base layer protector combines the toughest level of protection with a wool-blend vest for comfort and warmth.

DETAILS_

Oseus VPD
Back protector tested to EN1621-2, level 2 standard.

Ventilated VPD protector
The protector is perforated for optimum airflow.

Wool-polyester base layer
A blend of wool and polyester gives optimum thermal regulation and technical functionality.

Cross-weave construction
Keeps wool next to the body for extra comfort.

Storage Pockets

Zipped lift card pocket
A smaller zipped pocket on the left seam is ideal for keeping a lift card secure.

Zipped chest pocket

Hanging hook

Removable back plate

Weight
1450 g

OSEUS VPD VEST

The year-round back protector combines ultimate protection with functionality on the ski slopes and when riding the trails.

DETAILS_

Ventilated VPD protector
The protector is perforated for optimum airflow, allowing body heat to escape.

Breathable
The vest is highly breathable and wicks moisture away from the body.

Storage Pockets
Three rear pockets give plenty of storage space - ideal for cycling.

Zipped lift card pocket

Zipped chest pocket

Removable back plate
The back plate is removable so the vest can be easily washed.

NEW

OSEUS VPD SHORTS

An ideal choice when practising new tricks, or for any rider looking for more thigh and tailbone protection, the Oseus VPD Shorts give lightweight certified protection, warmth and comfort.

DETAILS_

VPD Protectors

Lightweight padding covering the tailbone and outer thighs, certified to EN1621-1, Level 1 standards.

Wool Blend

A blend of wool and polyester perfectly balances warmth and thermal regulation with performance properties.

Long leg length

An inseam length of 24.5cm (size M) ensures the shorts do not twist or move out of position, even during strenuous activities.

Soft waistband

A soft, wide waistband featuring a debossed POC logo gives a secure fit.

Hanger loop

A hanger loop on the rear of the waistband makes it easy to hang the shorts to air dry.

Weight

310 g

NEW

SYNOVIA VPD SHORTS

Find extra comfort and security on the trails with lightweight, highly flexible protection in risk zones. Ideal for e-bike riders or wet conditions, the shorts give extra protection necessary for higher speeds.

DETAILS_

VPD Air

Lightweight, highly ventilated comfort padding covering the outer thigh and tailbone.

Chamois

A soft chamois pad enhances saddle comfort.

Lightweight fabrics

Highly ventilated fabrics wick moisture away from the body and make the shorts an ideal under layer.

Longer leg

An inseam of 26cm (M) ensures the shorts sit as they should for the duration of a ride.

Hanger loop

Makes it easy to hang the shorts to air dry after use.

Material

100% Polyamide.
Insulation:
100% Recycled Polyester.

DIMENSION AVALANCHE BACKPACK

The backpack for the ultimate in backcountry adventures, the Dimension Avalanche Backpack includes an airbag for extra protection in high-risk terrain.

DETAILS_

Airbag

The avalanche airbag is designed to increase your chances of survival in an avalanche. Powered by a supercapacitor, it's quick to charge, is not temperature sensitive, can be deployed multiple times and fully inflates in under 4 seconds.

Travel Easy

The airbag system is free from Li-ion batteries and explosives, meaning air travel is hassle free.

Drainage pocket**Avalanche Pocket**

Quick-Access avalanche pocket is lined with highly durable Cordura.

Fleece-lined Goggle pocket

Easy-access main pocket
A back opening means you can easily reach kit even if skis are attached.

Highly adjustable**Ski carrying straps****Removable helmet pouch****Ice axe loops****Material**

Main fabric: 100% polyester.
Back panel: 79% recycled Polyester, 21% elastane.
Lining Fabric: 100% recycled polyamide.
Safety pocket lining: 100% recycled polyamide.
Goggle pocket lining: 100% Recycled polyester.
Helmet net: 85% Recycled polyamide, 15% elastane.

Weight

POLE GUARD

Classic pole guard with large coverage area that maximizes protection of the hand from every angle.

DETAILS_

Large coverage area
Maximizes protection of the hand from every angle.

Polyethylene construction
Constructed entirely from polyethylene for strength and resilience in even the coldest conditions.

Smooth surfaces
Exceptionally smooth outer surface minimizes friction from hitting the gate, and

a smooth, ergonomic inner enhances hand protection.

Drill guide
Top drill guide makes it easy to secure the guard closer to the pole.

Rubber shim
Gives a secure fit on 16mm pole circumferences.

NEW  **RACE BACKPACK 50L**

Perfectly sized for all a junior ski racer's kit, the Race Backpack 50L is an indispensable carry-all for training or race day.

DETAILS_

Durable Water-Resistant Materials
Constructed from exceptionally durable and hard-wearing 600D polyamide.

Kit Organiser
Separate compartments for ski boots, goggles and other kit.

Back Opening
A large fold-down flap on the back gives a great platform for changing in to ski boots.

Wide shoulder straps

Recycled Materials
Most fabrics used in the backpack are chiefly constructed from recycled fibres.

Open Mesh Pockets

My Info Panel
The My Info panel can be used to store vital contact info.

Highly Adjustable

Glove-friendly zips
All zip pulls are easy to operate while wearing gloves.

Material
Main fabric: 53% non-p polyvinyl Chloride, 47% recycled polyester.
Back panel: 79% recycled Polyester, 21% elastane.
Lining Fabric: 100% recycled polyamide.
Goggle pocket lining: 100% Recycled polyester.

M'S COALESCE JACKET

Featuring recycled loose fiber insulation, the Coalesce Jacket gives freedom, versatility and warmth through the seasons, whether used on its own or as a liner.

DETAILS_

Recycled Insulation

T-Core Circular Fill recycled loose fiber insulation is held in slim channels for optimal distribution of warmth.

Durable fabric

A Mini Ripstop fabric construction improves durability and reduces the chances of snags and tears.

Fluorocarbon free DWR

A fluorocarbon free DWR treatment keeps light rain out.

Hidden cuffs

Wide, elasticated cuffs are hidden inside the sleeve, supporting both comfort and insulation.

Warming hood

The insulated hood gives a snug fit and features piping elastic around the rim for a close and comfortable fit.

Reflective details

Two large, warming hand pockets give plenty of storage space.

Material

100% Polyamide.
Insulation:
100% Recycled Polyester.
Lining: 100% polyamide.

APPAREL SIZE GUIDE

HELMETS

ABS: Acrylonitrile Butadiene Styrene

A very hard plastic used in the helmet shell. It is widely known for its impact resistance, strength and durability.

EPP: Expanded Polypropylene

A helmet liner material that can withstand multiple impacts, dependent on the severity of the impact. EPP liners tend to be thicker than EPS liners.

PC: Polycarbonate

Stiff and strong material used in the helmet shell. It is well suited to thermoforming to give a secure bond with the helmet liner.

EPS: Expanded Polystyrene

The traditional helmet liner material found in most helmets (from all manufacturers). Will compress under force, and tends to only be suitable for one crash. Lighter than EPP. EPS liners can be thinner than EPP liners because EPS has better impact resistance in terms of volume of material used.

ABS/PC

A blend of ABS and PC used in some of our helmet shells. It provides an ideal balance of durability and stiffness.

Aramid

Exceptionally strong synthetic fibers that provide unsurpassed protection against penetration and enhance the structural stability of a helmet.

HELMETS AND ARMOR

VPD: Visco-elastic polymer dough

VPD is our protective material, visco-elastic polymer dough. Chiefly used in body armor but also in some helmets. VPD retains its impact absorption ability regardless of number of impacts. VPD is malleable and shapes to the form of your body for a unique and flexible fit, only hardening on impact for enhanced protection.

APPAREL

Dyneema®

Dyneema® is one of the world's strongest materials. Around 15x stronger than steel, the material gives exceptional laceration protection. A new kind of Dyneema® with stretch, developed specifically for POC, allows us to create flexible armor.

GOGGLES

TPU: Thermoplastic Polyurethane

A flexible and durable plastic well suited to very cold temperatures, making it ideal for goggle frames.

CP: Cellulose Propionate

Highly durable plastic well suited to low temperatures and with excellent optical properties.

Grilamid

Lightweight, highly impact resistant, strong and weather resistant plastic, making it suitable for goggle and sunglasses frames.

PC: Polycarbonate

Strong, highly durable material with superior optical properties, making it well suited to use in goggle lenses.
